Adopt a Dancer

How you can help

Support a Deserving Child's Dream

Access to extracurricular activities is crucial to the personal and long-term development of children, families and communities.

Unfortunately, many children do not have access to these activities. Of those who are enrolled, a significant number drop-out due to their parents' inability to afford school related costs. Our goal at Melani School of Dance is to assist as many disadvantaged kids as possible, gain access to these activities. Studies show that Dance and movement play a vital part in the development of young children into confident coordinated and well socialised individuals.

The adopt-a-dancer program is an innovative response to the educational needs of the poor, abandoned and disadvantaged children in our communities — who need financial assistance to gain access to extracurricular activities. Adopting a dancer simply means being financially or partially responsible for their dancing fees, uniforms, examination fees and eisteddfod fees. These are costs that typically prevent poor students partaking in extramural activities. The program allows 100% of your donation to go directly to the student. Your donation, irrespective of how small or large, goes a long way in funding a student's dream.
